Surrounded by lush greenery in the panoramic and highly private setting of Buguggiate, this prestigious villa with swimming pool represents an outstanding example of contemporary elegance and refined living.

The property enjoys a strategic location, just a few minutes from the centre of Varese and the European School, with fast connections to Milan, reachable in approximately 30 minutes, as well as to Malpensa International Airport and the Swiss border, both about 20 minutes away. An exclusive context, ideal for those seeking tranquillity and privacy without sacrificing convenience and accessibility.

Rosa mountain range.

The sleeping area, separated and secured by reinforced access and motorised anti-intrusion shutters, comprises three bedrooms. The master suite features two walk-in wardrobes and a spacious en suite bathroom with both bathtub and shower. A second bedroom includes a mezzanine level currently used as a hobby area, with its own dedicated bathroom, while the third bedroom benefits from an adjacent bathroom complete with bathtub and shower. A private study completes this level.

The lower level, accessed via an internal wooden staircase, hosts a second living area with fireplace, currently arranged as a professional billiard room, lounge and dining area, with direct access to the garden. This floor also features a fully equipped fitness area, a private SPA with whirlpool bath and Turkish bath, a service bathroom and a wine cellar. A spacious triple garage is also located on this level.

The property is further enhanced by an independent apartment with private entrance on the lower floor, comprising two rooms and bathroom facilities, ideal for guests or staff accommodation.

Externally, the villa is surrounded by a beautifully landscaped private park of approximately 6,000 square metres, offering complete privacy and a harmonious connection with the surrounding natural landscape. The swimming pool is perfectly integrated into the garden setting, creating an ideal environment for relaxation and outdoor living.

The residence boasts high-end finishes and state-of-the-art technological features, including a home automation system, video surveillance, alarm system, bulletproof and anti-break-in glazing, as well as photovoltaic and solar thermal systems. The property holds an energy efficiency rating of class B, reflecting a strong focus on sustainability and energy performance.
