Coldwell Banker Gruppo Bodini offers for sale a prestigious multi-level penthouse, embellished with large terraces, abundant natural light, and suggestive views of the city of Milan. The building at Viale Toscana 2 was built between 2012 and 2013: a modern and elegant complex, featuring a communal garden, a full-day concierge service, a lift, and video surveillance. The location is particularly strategic, in the heart of an area between Bocconi University, Porta Romana and the Navigli/Ticinese canals. The penthouse, located on the 9th floor, extends up to the 11th floor and features a rooftop surrounded by greenery, with pleasant views of the city. The home is spread across multiple levels, offering spacious, comfortable, and well-organized spaces. The ninth floor features a living area with a double living room, a dining room, a large eat-in kitchen, a guest bathroom, and custom-built closets. The building's unique architecture gives the property a distinctive character from the moment you enter, enhancing the outdoor spaces that extend from the living area to the upper level, which is entirely dedicated to the sleeping area. The upper floor features four bedrooms, three bathrooms, and a double walk-in closet. The residence is completed by the 11th floor, dedicated to relaxation and designed as a versatile space for sports, music, socializing, or simply enjoying a good book. The solution is completed with a cellar and a double garage, available for anyone who needs them. Asking price: €1,900,000, plus garage costs. Available immediately for inspections.
